

991 S. Delsea Dr, Vineland NJ 08360
Office: (856) 362-5707 Cell: (609) 774-5120

Congratulations!

You have your permit and can now drive with a supervising driver.

What to do next

- 1) Schedule your road test appointment with NJMVC.gov.
- 2) Have your parent or guardian added you to their insurance policy. (Normally, you do not have to pay to be added to a policy until you receive your probationary license.)
- 3) Save the attached Certificate stating you have completed Precision Driving Academy LLC's Defensive Driving course for a 10%-15% discount on insurance. Photocopies emailed should be sent to the insurance company.
- 4) Check with your insurance company to see if you qualify for a good student discount.
- 5) Review the weakness chart with your new driver. Areas that are checked off are weaknesses that need to be worked on.
- 6) You cannot take the road test with a vehicle that has a center console unless there is an emergency brake between the seats. For the road test, you need to have your permit, original birth certificate or passport, red decals on the car, and must be accompanied by a licensed driver.
- 7) Log your 50 hours of driving in the STK booklet. Sign form stating all hours are complete including 10 hours of nighttime driving.

Precision Driving School Tips

K-Turn/3 Point Turn

- 1) Put your right turning signal on and pull to the shoulder of the road, then stop.
- 2) Put your left turning signal on, check for traffic, turn your wheel all the way to the left while moving across the street, making your car perpendicular to the opposite side of the road.
- 3) Put your car in reverse and turn your wheel all the way to the right while backing up.
- 4) Put your left signal on and while turning your wheel to the left while you move your vehicle down the road.

Parallel Parking

- 1) Right turn signal
- 2) Pull up no more than 2 feet away from the car you are parking behind.
Align the back window with the cone (back bumper of the car you are parking behind).
- 3) With your right turn signal on, turn your wheel all the way to the right and reverse until you have made a small triangle just over the curb with your back up camera lines.
- 4) Turn your wheel all the way to the left and back up until your car is parallel with the curb.
- 5) Straighten your wheel, put your car in park.

----- **CONTRACT** -----

Precision Driving Academy, LLC hereby agrees to give instructional lessons in relation to the operation of a motor vehicle to _____.

Contract Number (Permit Number): _____

State of NJ Driving School License Number: _____

Licensed and approved by: State of NJ & Dept. of Motor Vehicles

This agreement will include the following services:

Behind the Wheel Course (6 hours)	\$398.00
Obtain a special learner's Permit from MVC	\$10.00
Red Decals	\$4.00
Purchase of Permit at State Agency Office	\$10.00
Road Test Services	\$225.00
Individual Lessons (per hour)	\$90.00
Lost Permit Charge	\$30.00
TOTAL COST TO STUDENT	\$ _____

This agreement shows an itemized account of any services rendered. To cancel a lesson and reschedule that lesson, 24 hours' advance notice is required, or the student may be charged for that lesson. Cancellation must be made to the phone number listed above. Appointments must be mutually agreed upon for date, time and location. The number of minutes per lessons specified shall be the actual number of minutes of instruction provided to the student. The vehicle to be used for instruction has an automatic transmission. The vehicle shall be equipped with a gas and brake for both the instructor and the student. No fees will be charged other than those specified above. This constitutes the entire agreement between the driving school and the student, and no verbal statements or promises will be recognized. The student may rescind this agreement within 72 hours before the first lesson and upon such shall receive a refund for any lesson or service.
